

FOCUS on INTERDENTAL CLEANERS

Interdental cleaning is integral to oral health. This table provides helpful details about available nonfloss interdental cleaners and is designed to assist oral health professionals in providing customized recommendations to their patients.

Editor's note: While every attempt was made to be as comprehensive as possible, there may be inadvertent product omissions.

TYPE	MANUFACTURER	PRODUCT NAME	DETAILS	End Tuft Brushes
• Flat Trimmed Bristles	Curaprox	CS 1006 Solo Brush	1006 soft Curen® filaments and rounded tuft head are designed so the filaments perfectly match the gumline; recommended for patients with braces and implants	
	Henry Schein	End-Tufted Tapered Brush	Four-tuft (tapered trim); small-head brush has angled handles for difficult-to-reach areas; perfect for orthodontic bands and implants; 0.007" natural filament	
	Oral-B	End-Tufted	Designed with a unique contra-angle for effective, site-specific gingival cleaning around crowns and bridges, crowded teeth, difficult-to-reach areas, and gingival surfaces	
	Plak Smacker	End-Tuft Toothbrush	Designed for accessing difficult-to-reach areas of the teeth and gums; small, round brush head has seven tufts of tightly packed nylon bristles that are ideal for cleaning sensitive gums and orthodontic appliances; rubber comolded grip provides excellent tactile grip and ergonomic control; available in an assortment of red and blue colors; packaged in 144-count box	
	POH Oral Health Products Inc	#6 Super Soft Sulcus Brush	Soft bristles effectively clean interproximally and along the gingival margin; addresses the special needs of periodontal patients and patients with compromised tissue	
	TePe Oral Health Care Inc	TePe Compact Tuft	Angled brush with a compact, dome-shaped tuft; bristles are short, extra soft, and flexible for optimum control; excellent for difficult-to-reach areas, orthodontics, and implants	
		TePe Implant Care	Unique contra-angle brush provides easy access to the lingual and palatal surfaces of implant abutments; designed to facilitate cleaning in difficult-to-reach areas	
	The Doctor's™	Brush Picks	Designed to safely remove food debris and fight gingivitis; brush end extends between teeth gently and easily; pick end safely scrapes away plaque	
• Pointed Bristles	Denticator®	Denticator Handle with Tapered Brush	Effective self-care method for fighting gingivitis and preventing periodontal diseases	
	Plak Smacker	Flexible Cone-Shaped Interproximal Brush	Flexible rubber handle allows access to difficult-to-reach areas; clear cover converts into a handle	
	Sulcabrush Inc	Sulcabrush	Gumline massager with angles	
	Sunstar Americas Inc SUNSTAR <small>BRISTOL MYERS SQUIBB</small>	End-Tuft Brush	Soft, tapered trim and small brush head address special maintenance concerns, including orthodontic bands, furcations, implants, distal of last molar, and other difficult-to-reach areas	
		GUM® Proxabrush® Snap-Ons Dual-Ended Sulcus Brush	Soft bristles gently and effectively clean along gumline to help fight and prevent periodontal diseases, and massage gums interproximally and along the gingival margin to remove plaque and help prevent bleeding	
	TePe Oral Health Care Inc	TePe Interspace	Angled brush with pointed tip improves access to difficult-to-reach areas, such as furcations and the distal surface of the last tooth; ideal for cleaning bridges, crowns, and around implants and orthodontics; two different angles for optimal access; tips come in extra-soft, soft, and medium textures	

Flat Interdental Cleaners

	Denbur	EZ-Floss Wide Spaces	Knife-shaped tip fiber coated on three sides, with gumline side fiber-free to protect sensitive gums; wire-free, stiff neck adjusts up to 90°; made in the USA
		EZ-Flow	Syringe and bendable tips with axial opening and semicircular structure; economical and effective means to irrigate interdental areas, flushing out food particles while refreshing the oral cavity; made in the USA
	DenMat	Rotapoints®	Made of high-strength polypropylene; excellent for removing both dental plaque and debris from interproximal spaces; available in white dispensers; can be personalized with dental practice information
	Toothguard Dental Instruments	Bryton®Pick	Reusable and convenient; designed for on-the-go flossing; great for patients with braces; 100% made in the USA
	Ultradent	Opalpix	Thin tip provides perfect balance of flexibility and rigidity; massages interproximal tissue while removing debris and plaque; will not splinter or break

Interproximal Brushes

• Cylinder-Shaped Brush Refill	Curaprox	CPS Prime Interdental	Space-filling, effective, and gentle; effectively cleans critical interdental spaces; enables access to the smallest interdental spaces without risk of injury thanks to CURAL®, an ultra-thin and strong surgical wire that makes a single cleaning movement sufficient
		CPS Soft Implant Interdental	Fine, long bristles are designed for the gentle cleaning of large spaces after periodontal treatment and for implants; plastic-coated center protects titanium implant surfaces
	Denbur	EZ-Floss Extra Narrow	Small cylinder brush; made in the USA
	Dr. Collins	Dr. Collins Interdental Cleaners	Extra-soft cylindrical bristles remove plaque and debris; bendable plastic-coated wire with a flexible rubber handle; ideal for implants and other dental work; ventilated cap and storage case; available in four color-coded sizes and a variety pack
	EZ-Floss	E-Z Interdental Small Cylinder Brush	Made in the USA
	Oral-B	Interdental Extra-Fine Tapered Refills	Extra-fine and tapered to effectively clean around bridges, braces, and wide interdental spaces; patented snap-lock brush replacement with volcano-shaped tip makes brush replacement easy
	Plak Smacker	Flexible Cone-Shaped Interproximal Brush	For patients on-the-go; flexible rubber handle makes it easy to reach difficult areas; clear cover conveniently converts into a handle; brushes are packaged in an assortment of pink, purple, green, and blue; packaged in a 144-count box
		Soft Spiral Brush	Makes cleaning between braces a snap; brush features flexible handle that easily maneuvers between teeth and brackets; convenient cap enables easy stow, whether at work, school, or the office; offered in blue; packaged in a 144-count box
